My dear Charles—

Your nice letter and welcomes came to me while I was at Shelbourne and I certainly appreciated reading all. I would have answered you sooner but waited to see my papers on genealogy (which are here at my home in Savannah) as I could not be sure of the connections with such reference—nor am I perfectly certain now about it as the branch going in the post no you send is one off, from ours. The source is excellent correct but it takes so long to study over & cite these subjects & I should have preferred opportunities since selling here—

(over)

I am delighted to have the papers
you sent & will study into them
further & hope it is correct.
for if so it may what I have
been searching for quite awhile
I have even sent to England - I
am anxious to know how the party
got the English data of 1505 & over
(Isaac) Collier who appears to be the
same as his Isaac - from Robert
& Thurston (Collyer) - Can you
find out from him & let me
know - I will be glad to let him
have whatever of my record that
will assist him in any way -
Is his record is marked from
the Society Place Library, N.Y. City -
Did he find them there himself or
some one else connect his family
up for him to these first English
Collyers? I see he is a collateral
Branch & Isaac branches off with the
Vicar Collier marriage - All of this

Your letter dated 2 Nov I know & may be he would like me to copy it for him. Salva have all the Wm & Mary Quarterly data - The names as you say are the same as our records & I believe will prove all right - He is related to my LINES as soon as I find if he wants them & I can have copies made - Let me know - I hope this letter will reach you as I am sending to the same address - But you mentioned your not being there but I feel sure it would reach you if sent care Richmond Va - You should send me your home address also - Hope all your family are well - Sorry your last was partner died It is trying to have to readjust such matters & conditions - I thank you for the copy of your friends Record you sent me - I am glad to have it - tho I had most of it already - Let me

HEAR

soon as soon as you can - so
soon know what you must do
& send you - will in the mean
time look over my papers as
fully as can - I know to send
for Mr Comer as his eyesight
is failing so - & my time is much
limited for other matters than it
is for him - The Collects don't want
him to use his eye too much -
Excuse my substituting as I
do - Thank for you & how I
do you some day some thing
found among my PARENTS
facts, I think you will value
for sentimental reasons —
Not best wishes & love

Your affly

Cousin Georgie —
